

C++2: Lesson 5 – Interview

1. Add **summary** at the top and **comments** where necessary.
- Recordings and interviews are an exception, but they should be included in your submission code.
2. **Cite** the source of your information.
3. Refrain from including anything **you don't fully understand**.

1	100 points 5-min challenge: you will get full credit after you reproduce your work during a class or interview. Write a code to take two numbers from a user to perform a simple division. input as shown below. a. Make sure that the code does not terminate abnormally when you receive invalid input: when the divisor is zero b. Use the try ~ catch statement. Note: *Explain the code you are writing. *Perform two consecutive recordings for each task. *Follow the standard routine for each interview. 1. Share the entire screen (https://bit.ly/3INpkJV) 2. Use only one screen to share (Win + P > PC screen only) 3. Display the running programs (Alt + TAB) 4. Get your IDE ready * Editing your recordings is considered cheating and will not be tolerated.
Sample output	<pre>num1? 7 num2? 0 You can't divide 7 by 0.</pre>
