

# C++2: Lesson 7 – Lab Project

1. Add **summary** at the top, **documentation** at the bottom and **comments** where necessary.  
- Recordings and interviews are an exception, but they should be included in your submission code.
2. **Cite** the source of your information.
3. Refrain from including anything **you don't fully understand**.

2 **200 points**  
Write a program that simulates **music playlist navigation** using a **Doubly Linked List (DLL)**. The program should allow users to:

1. **Move to the previous song** in the playlist.
2. **Move to the next song** in the playlist.
3. **Go to a specific song position** in the playlist.
4. **Exit the program**.

## Program Flow:

1. **Initialize the playlist** with six preloaded songs:
2. **Randomly select** a current song at the start.
3. **Display a menu** allowing users to navigate between songs.
4. Perform actions based on user input until they choose to **exit**.

Music List:

1. Baby Shark
2. Five Little Monkeys
3. Twinkle, Twinkle, Little Star
4. Head, Shoulders, Knees and Toes
5. Rain, Rain, Go Away
6. Hush Little Baby

Randomly selecting a current song...

Currently playing: Twinkle, Twinkle, Little Star

Menu:

1. Previous song
2. Next song
3. Go to a specific song position
4. Exit

Enter choice: 1

Currently playing: Five Little Monkeys

Enter choice: 2

Currently playing: Twinkle, Twinkle, Little Star

Enter choice: 3

Enter song position (1-6): 1

Currently playing: Baby Shark

Enter choice: 4

Exiting playlist...
